

## *Nobody's Fool*

Copyright © Ali Matthews and Rick Francis (SOCAN) 2000

*This was a blast to co-write with Rick. Thank you to Amanda for the first line and the inspiration and to Dave for the cool trumpet.*

*You don't have to be sick to get better  
You don't have to be up to fall down  
I prefer that we never say never  
You can fly with your feet on the ground*

*You don't have to have much to have nothing  
You don't have to be lost to be found  
In the end who will know that you're bluffing?  
So listen most when you don't hear a sound*

*Oh, darlin', you ain't nobody's fool  
Oh darlin', go ahead and break the rules*

*You can't judge a book by its cover  
Or a man 'til you walked in his shoes  
Cuz, if you try then you just might discover  
You will find... the joke is on you*

*You don't need to have sight to have vision  
Don't need to have a switch to turn on  
Seems that life is a strange contradiction  
Gotta learn what you knew all along*

*Oh, darlin', you know you ain't nobody's fool  
Oh darlin', go ahead and break the rules*
